

**Here is the way to get into garage--**

1. The garage is on Glebe Rd. side of the building past Harris Teeter.
2. The Garage door will be closed. Drive up to the intercom box on your left.

3. There will be a list on the left ( white paper in picture) that is a directory of numbers. Press the chiropractic button code on the intercom box ( dark gray on picture) . You **MUST** press the buttons on the intercom for the door will open. You can park anywhere in the garage (there is no assigned parking).

4. **Once you park in the garage** you will see an “ entrance to lobby” sign. Go in though the those doors. After you go down the 4 stairs and up 4 more stairs there will be a locked door. You will see a “ push button for receptionist” button on your right. Go into the lobby and you will see the building security front desk to your right. Go **outside** and our office entrance will be to your right. **Do NOT go in the lobby elevator...our office is on ground level outside!**
